It is astonishing to me as an American citizen that our government is even

contemplating these measures. The electromagnetic broadcast spectrum belongs  $% \left( 1\right) =\left( 1\right) \left( 1\right) +\left( 1\right) \left( 1\right) \left( 1\right) +\left( 1\right) \left( 1\right) \left($ 

to the people. The FCC is the body which we have created to administer that

spectrum, in the interests of serving our democracy.

That you would consider allowing the creation of a broadcast media  $\mbox{which}$ 

resembles nothing so much as the single viewpoint state supported media of the  $\,$ 

tyrannies which American citizens were asked to give their lives to defeat during

the past century is incomprehensible and indeed shameful.

The rules against concentration of media ownership need to be strengthened, not discarded.
